A 21ST CENTURY EDUCATION. A 21st century education is about giving students the skills they need to succeed in this new world, and helping them

grow the confidence to practice those skills. With so much information readily available to them, 21st century skills focus more on making sense of that information, sharing and using it in smart ways.

Common myths about 21st-century literacies
Myth: 21st-century literacy is about technology only. Reality:

Although technology is important to literacy in the new century, other dimensions of learning are essential. Studies of workforce readiness show that employers rate written and oral communication skills very highly, and collaboration, work ethic, critical thinking, and leadership all rank ...
