loving Sherryl Cashin 2017-06-06 how interracial love and marriage changed American history, and continues to alter the landscape of American politics. When Mildred and Richard Loving wed in 1958, they were ripped from their shared bed and taken to court. Their crime: marrying someone of a different race. When they returned to Virginia, their home state, Lovings marriage was annulled. This was America's original sin, tracing how we transformed from a country without an entrenched construction of race to a nation where one drop of nonwhite blood merited exclusion from full citizenship. The result? Avoid detailed reference, but it is created in the platoon class of yesterday and is reinforced by today's power-hungry dog-whistle to divide strutting whites and people of color, ensuring plutocracy and undermining the common good. Not just a hopeful treatise on the future of race relations in America, Loving challenges the notion that trickle-down progressive politics is the answer for a more inclusive society. Accessible and sharp, Cashin reimagines the possibility of a future where interracial understanding serves as a catalyst of a social revolution ending not in artificial color blindness but in a culture where acceptance and difference are celebrated.

Flagrant Conduct: The Story of Lawrence v. Texas Dale Carpenter 2012-03-12 “A highly informative, detailed, even thrilling account of how the Supreme Court argued repressed American law.”—Michael Brons, San Francisco Chronicle No one could have predicted that the night of September 17, 1998, would be anything but routine in Houston, Texas. Even the call from the police that morning made the scream of a woman’s suffering cry just a normal setting. Nobody could have imagined that the arrest of two men for a minor criminal offense would reverberate in American constitutional law, exposing a deep malignity in our judicial system’s challenging of transsexuals’ very conception of what may constitute a florid class of yesterday and is reinforced by today’s power-hungry dog-whistle to divide strutting whites and people of color, ensuring plutocracy and undermining the common good. Not just a hopeful treatise on the future of race relations in America, Loving challenges the notion that trickle-down progressive politics is the answer for a more inclusive society. My Beloved World—Sonia Sotomayor 2013-01-07 The New York Times—a cancer survivor and a trailblazer. Justice. This "powerful defense of empathy" (The Washington Post) is destined to become a classic of self-invention and self-discovery. The first Hispanic and third woman appointed to the United States Supreme Court, Sonia Sotomayor has become an instant American icon. In this story of human triumph that "humes with hope and exhilaration" (NYR), she recounts her life from a Bronx housing project to the federal bench, a journey that offers an inspiring testament to her own extraordinary determination and the power of believing in oneself. In this story of a precocious childhood, with an alcoholic father (who would die when she was nine) and a devoted but overburdened mother, and of the refugee a little girl took from the turmoil at home with her passionately spirited paternal grandmother. But it was when she was diagnosed with juvenile diabetes that the precocious Sonia recognized she must ultimately depend on herself. She would learn to give herself the insulin shots she needed to survive and soon imagined a path to a different life. With only television characters for her professional role models, and little understanding of what was involved, she determined to become a lawyer, a dream that would sustain her on an unlikely course, from valedictorian of her high school class to the highest honors at Princeton, Yale Law School, the New York County District Attorney's office, private practice, and appointment to the Federal District Court bench. Institutions of higher education long functioned as bastions of white supremacy and black exclusion. Against the walls of Jim Crow and the powers of state laws, black southerners—prospective students, their parents and families, their lawyers and their communities—struggled to gain access and equity. Higher Education and the Civil Rights Movement examines an understudied aspect of racial history, revealing desegregation to be a process, not an event.
